

Case Study – Insight for Living (Australia)

July 2003

Insight for Living (IFL) is the Bible-teaching radio ministry of Chuck Swindoll. Their 30-minute daily radio broadcast, Insight for Living, now airs worldwide on more than 2,100 radio outlets daily. Since 1979, Chuck's messages have been aired and distributed all over the world.

For more information about IFL, refer to their website – <http://www.insight.org/>

The Challenge:

Faced with a short time frame, IFL turned to RelocateIT for coordination of their entire office relocation. The scope included the relocation of all office furniture and equipment, storeroom stock and shelving, the relocation of their legacy phone system, computer network, workstations and the installation of new data and electrical cabling.

The Solution:

RelocateIT handled the entire office relocation, including the dismantling and re-assembly of reception desks and workstations. The relocation included the small, but necessary fit out tasks – such as the mounting of signage and brochure racks.

Working together with the US IFL IT team, RelocateIT was able to suggest an appropriate solution for their cabling requirements. New Cat 5e structured cabling was installed for their data and telephone system requirements. This also included the installation of appropriate surge-protected circuits for their file servers and communications equipment.

RelocateIT co-ordinated the relocation of the existing phone lines and phone system and arranged for the installation of a new, more appropriate, Internet service.

RelocateIT not only takes the opportunity to move workspaces, but makes every effort to improve them. In this instance, RelocateIT was able to advise and select a more appropriate Internet service for IFL. The result – a faster service *and* significant on-going savings on Internet/telecommunications costs for IFL.

"We really did appreciate all the hard work you put in to move us around the corner and for all your help with the computers and telephones. It has been a huge task and we thank you most sincerely. it has been great getting to know you - you have been so obliging, caring, considerate and very patient!.....Take care and thanks again,"

Warm regards,
Jenny (on behalf of the team at Insight for Living)
